

Dear Sirs,

This will be a violation of my families privacy. If this is allowed to happen the banks will contol my phone and not my family and I. It is still my phone. We have not relinquished that right. If the banks are allowed to do this it will diminish my ablity to choose what is allowed to come into our home. Please consider what is good for the families and not the big companies. Thank you very much.

Rev Frank D. Helton
